The question's wording has varied slightly over the years.

It also includes fines, fees, recoveries, inheritance taxes, and nonrecurrent levies on capital. Data are for central government and in percent of all current revenue.
Capital Account Restrictions	Gwartney and Lawson (2008)	Index based on two components: (i) Beginning with the year 2002, this sub-component is based on the question: "Foreign ownership of companies in your country is (1) rare, limited to minority stakes, and often prohibited in key sectors or (2) prevalent and encouraged". For earlier years, this sub-component was based on two questions about "Access of citizens to foreign capital markets and foreign access to domestic capital markets".
